EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification page 1 line 2, --, now U.S. Patent No. 6,517,564,-- has been inserted after "2000".

The above amendment was made to update the present status of the parent application.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose the method of claim 6 including loading a suture strand through a flexible eyelet of an insert molded non-threaded suture anchor having truncated cones and a blunt tip; attaching a hand driver with a cannulated shaft and handle to the anchor; the suture is passed through the shaft and handle of the driver, forming a bone hole, pushing the anchor with the driver into the hole without turning it and securing tissue to the anchor by tying a knot in the suture. Also not disclosed or obvious is just the above structure of the driver, insert molded suture anchor and suture through the eyelet and passing through the cannulated shaft and handle of the driver of claim 9; Also not disclosed is the combination of a driver having a cannulated shaft and handle with a recess for receiving the anchor, wherein the cannulated handle and the

cannulated shaft receive a suture which is loaded through a flexible eyelet of the suture anchor, and a distally-open narrow slot is formed axially through two opposed regions of the shaft wall adjacent the recess and opening into the shaft cannula, the slot is continuous with the recess and has a closed end along the shaft proximal to the recess, as in claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Glenn K. Dawson whose telephone number is 571-272-4694. The examiner can normally be reached on M-Th 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anhtuan T. Nguyen can be reached on 571-272-4963. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
